 **MERCATOR**  
Leaders in quality lighting & fans

# Dear Customer,

In 2017 we are incredibly proud to join a prestigious group of Australian companies that have been in business for over 50 years. This year also marks the year we celebrate our 50th Bright Ideas promotional campaign – a hallmark throughout the lighting industry.

Mercator remains a family business and operates with shared core family values. Our ability to design differentiated high quality technologies and products reflecting the latest fashion and styling trends has positioned us as a market leader. Our meaningful relationships and partnerships with our suppliers, retailers, wholesalers and fashion houses enable us to continue inspiring passion and creativity.

Mercator's unique workplace culture places the customer at the centre of everything we do and remains at the heart of our success. We have always, and will continue to stand proudly by our people and the products we sell. Our relentless determination to ensure we set the benchmark with the highest quality industry-leading products sees our R&D and Quality departments at the forefront of the industry.

As CEO, I am honoured to lead Mercator during this leg of its journey and I am pleased with the enhancements we have made to the commercial operations throughout this year. Our attention remains to continue systematically improving our products and to delight our customers, offering them an experience and service which exceeds expectations.

The immediate future is an exciting period whereby significant investment into our operations at Mercator will see us continue to strengthen our market leading position.

This 2017 catalogue is full of exciting products and an opportunity for us to showcase the latest trends and technology from across the globe.

We thank you for your loyal support over the years and the role you have played in making Mercator the success it is. We stand ready to partner with you as our loyal distributor and trust this catalogue will become an even more valuable tool within your business.

Yours Sincerely,

A stylized, handwritten signature in white ink on a black background, reading 'Mark Bejatovic'.

**Mark Bejatovic**  
Chief Executive Officer

# MERCATOR

MERCATOR HOUSE

Since 1962

**Australian Owned & Operated** —

**1962**

Founded in Melbourne by Syd Kiewitopon

**1973**

Achieved \$1M in annual sales

**1975**

Russell Levy joined the company. The business is part of the Sun Electric Group

**1977**

Russell Levy takes over as General Manager

**1978**

Sun Electric Group together with Mercator is acquired by Burns Philp

**1992**

**2016**

- Russell Levy and Barry Levy retire.
- Appointment of new CEO to oversee implementation of strategic vision.
- Company celebrates 50th Bright Ideas promotional campaign.

# At Mercator, we take the responsibilities that come with being a market leader seriously.

From the time we commenced operations back in 1962 as a small importer, we have challenged ourselves to remain at the forefront of the Lighting Industry not only in Australia, but across the globe. Nearly 55 years later we are proud to be recognised by our suppliers, customers and competitors as one of Australia's leading providers of Lighting and Air Movement products to the Home, Business and Commercial environments.

Mercator is a family owned business built on caring for our customers and communities. We have always held a strong personal connection with our partners, and our rich history through the legacy of the Levy family sees us continue to place honesty and integrity at the core of everything we do. Our passion to continue to provide high quality, best in class products and consumer experiences remains steadfast.

Curiosity and consumer insight is part of our DNA - it's one of the founding principles on which the company was built. Mercator in 2017 continues to collaborate closely with industry partners and our end consumers, enabling us to bring the latest designs, innovations and fashions to market. To us, it's more than just "Lights and Fans" – it's about empowering people, businesses and communities to improve their lives through creating exquisite designs and continuously releasing new products to market.

In 2017, we embrace the challenges that an ever-changing world brings with continuous improvement, creative thinking and innovation thriving throughout every area of our business. Our focus to progress sustainable business practices, and to conduct our operations in a manner that enables the ability of future generations to meet their needs is unrelenting.

A modern interior space featuring a large, cylindrical copper pendant light hanging over a white modular sofa. The background includes a concrete wall, a bookshelf, and a large window with a view of the ocean. A diagonal line divides the image, with the text on the right side.

We trust  
that you will  
continue to  
partner with  
Mercator  
and look  
to this  
latest 2017  
catalogue as  
a source of  
inspiration for  
both you and  
your valuable  
customers.

Mercator's commitment to safeguarding the well-being of our people, customers, partners and the communities in which we operate is a longstanding part of our business.

Our sustained investment into our Quality and Compliance programs has resulted in our business being recognised and respected within the industry, ensuring everything we bring to market meets the highest possible electrical safety standards.

When deciding on the minimum performance standards of our products, we work closely with our supply partners to push the boundaries across lumen output, light efficacy, energy efficiency, airflow and ease of installation. This is just one of the ways we differentiate ourselves from the competition.

Our industry-leading Warranty program is backed by our own Mercator Electrical Solutions (MES) operation which has been initiated to give stores, electricians and consumers even greater peace of mind and allow instantaneous feedback to drive continuous improvements across our product portfolio.

As a longstanding member of the Lighting Council of Australia, Mercator tests and assesses all of its products to applicable AS/NZS electrical safety and EMC standards and all prescribed products are SAA approved. Every product undergoes an independent third party inspection process in accordance with MIL-STD-105E Level S4 criteria before release.

Near enough isn't good enough at Mercator.

# At Mercator, we know a lot about our customers.

---

Our research and insight takes us into the lounge rooms, bedrooms, kitchens and offices of discerning consumers from across the globe.

For over 25 years our industry leading Bright Ideas campaigns have been regarded as the pre-eminent consumer targeted promotion within our industry. Our ongoing commitment to provide you, our loyal retail partners, with best in class marketing and in-store Point of Sale support remains. We will always strive to enable you to drive your businesses and markets with the Mercator competitive advantage.

Our dedicated, long serving team is, as always, determined to exceed the needs of our customers. The Mercator Family is a learning family that responds to changing customer, employee and community needs through constant evolution and innovation. We are committed to each other and look to provide opportunity, recognise talent, and develop leaders.

We rejoice in our successes and seek to learn from our failures.

We search the globe to uncover those hidden gems which truly inspire people to delight their senses and transform their homes.

---

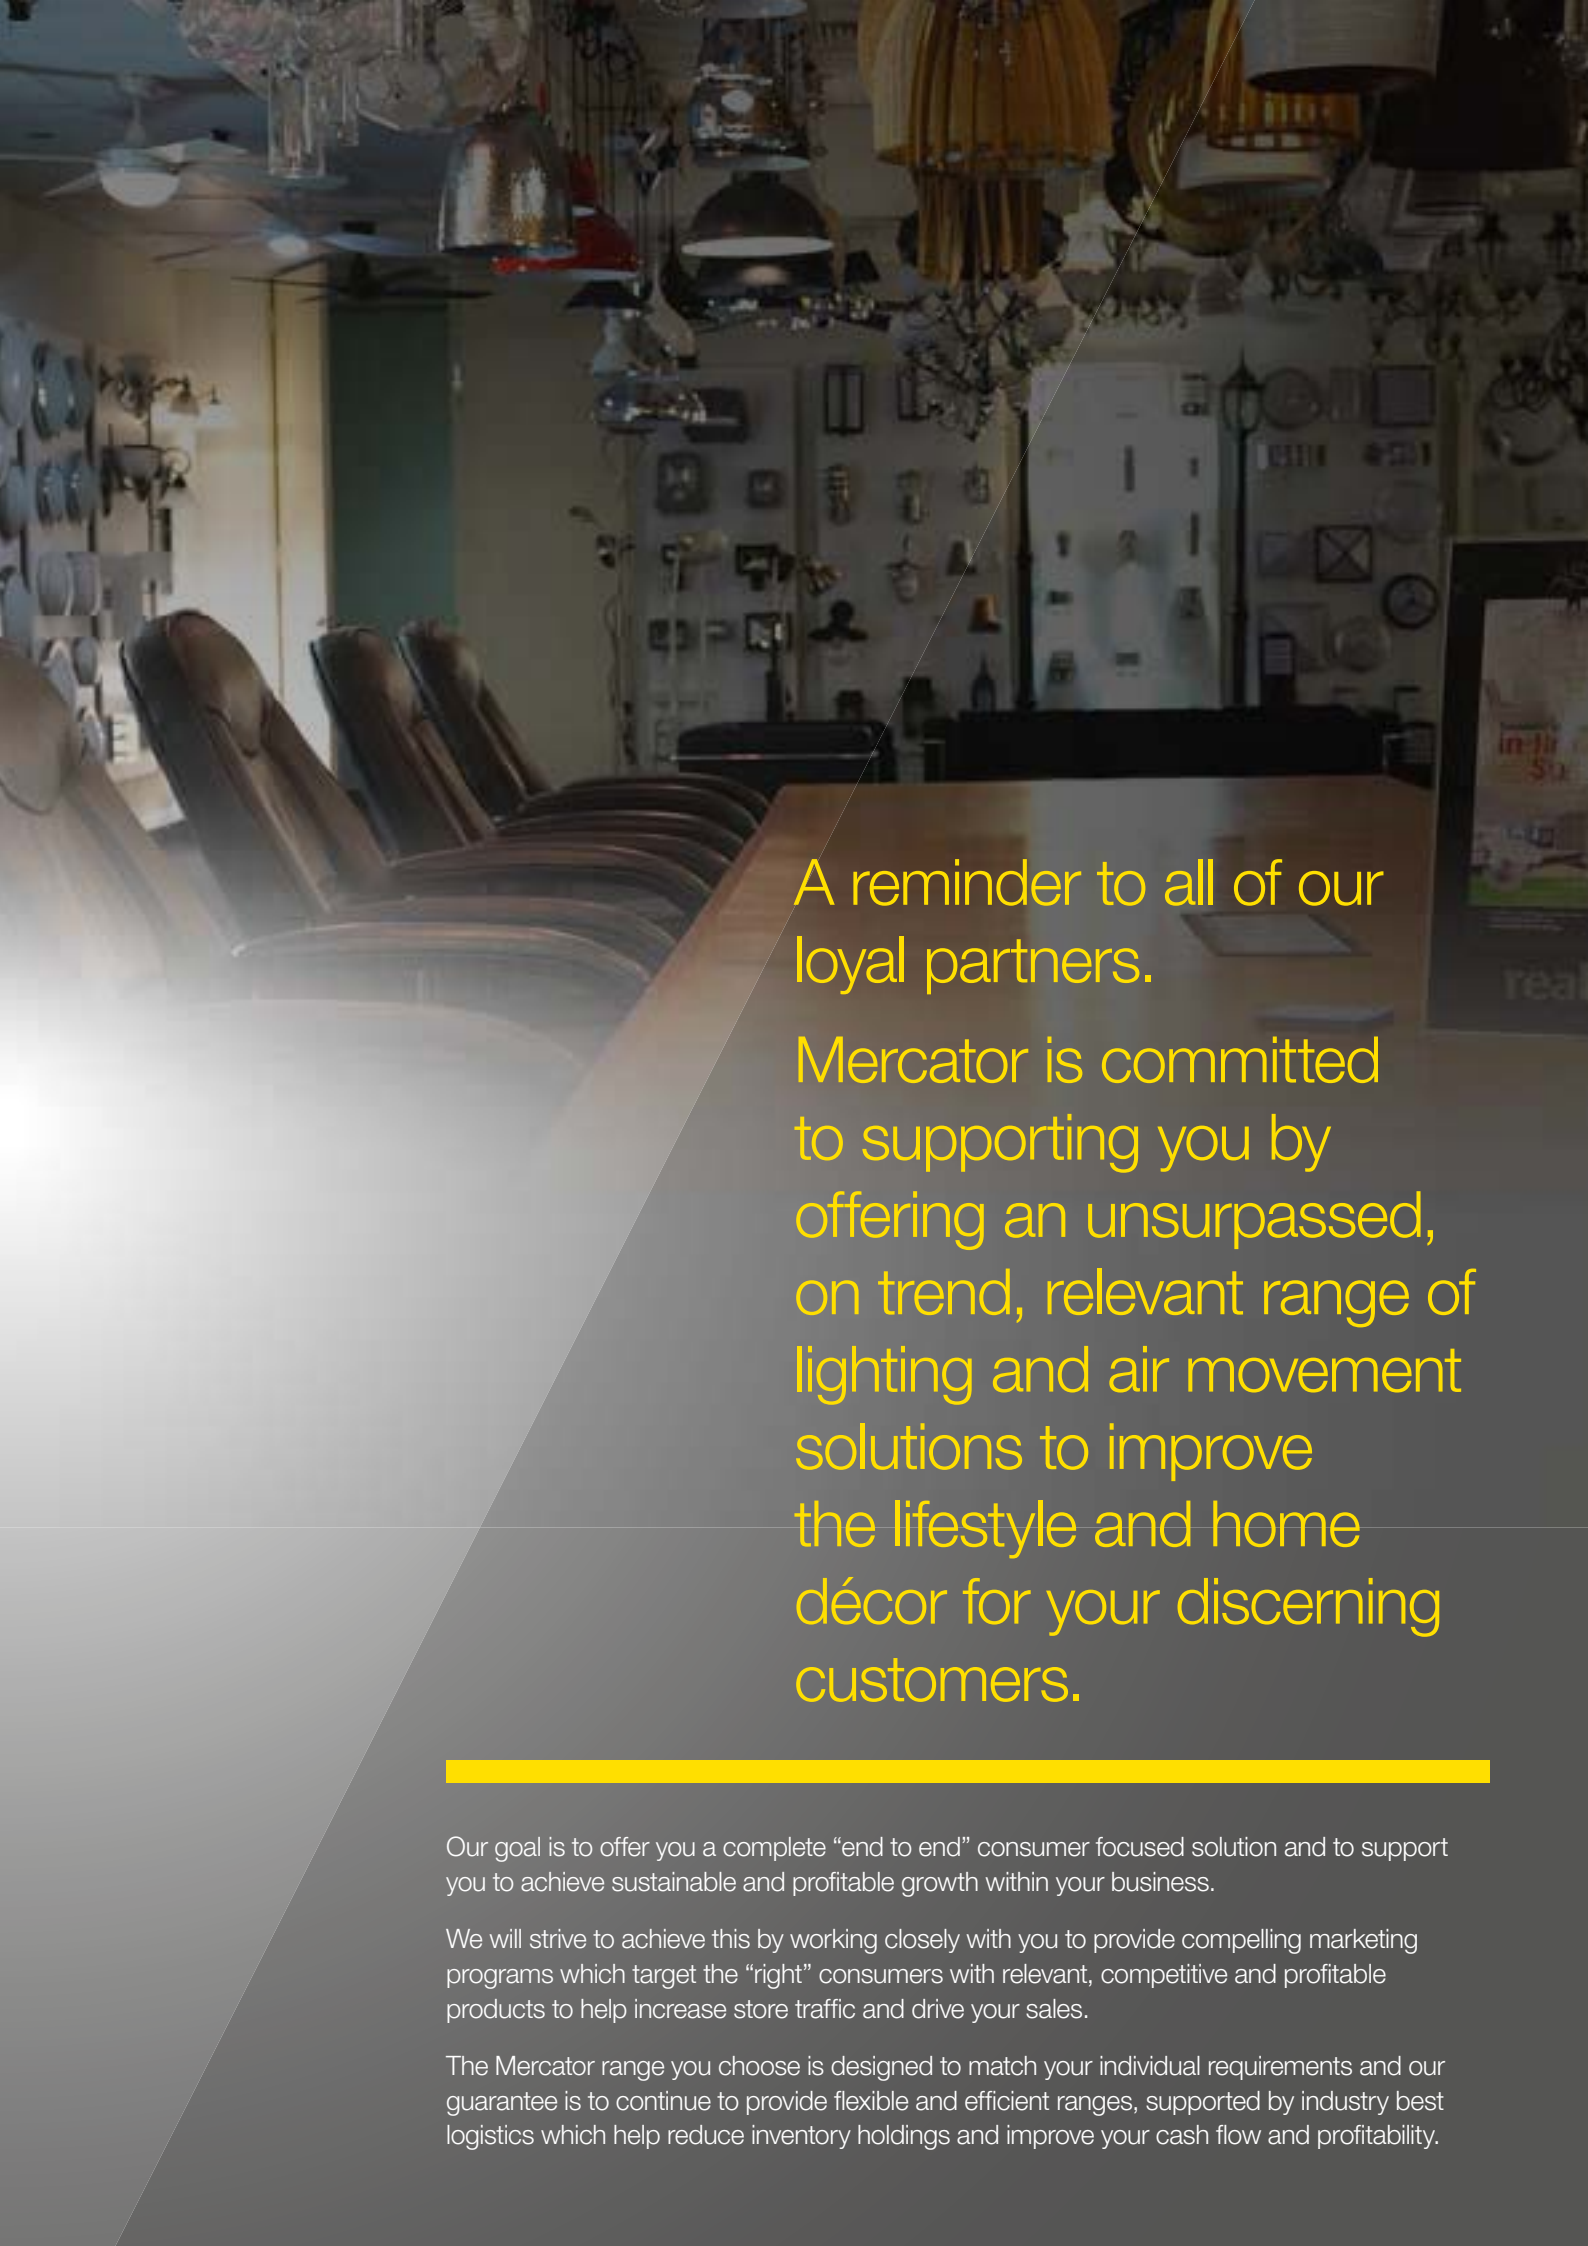

We believe that a diverse team of well-trained individuals working together in an environment that fosters respect and drives high levels of engagement is essential to our continued success.

Mercator has always been about people. From when Russell Levy took over the business in 1975 and was joined by brother Barry in 1986, the Levy family recognised the importance of treating employees and customers alike with respect.

Leading with confidence and vision, the Levy brothers set about creating a culture that inspires excellence, with a clear focus on service and dedication to making life easier for our customers which still exists today.

Whilst Russell and Barry retired from their active management roles in 2016, they continue to focus their efforts in their respective roles as Chairman and Non-Executive directors on our board. The legacy they leave looms large in the way we separate ourselves from the crowd by going the “extra mile” in our dealings with customers and delivering industry-leading service backed by a committed team of professionals who strive to enhance “The Mercator Experience”.

A reminder to all of our loyal partners.

Mercator is committed to supporting you by offering an unsurpassed, on trend, relevant range of lighting and air movement solutions to improve the lifestyle and home décor for your discerning customers.

---

Our goal is to offer you a complete “end to end” consumer focused solution and to support you to achieve sustainable and profitable growth within your business.

We will strive to achieve this by working closely with you to provide compelling marketing programs which target the “right” consumers with relevant, competitive and profitable products to help increase store traffic and drive your sales.

The Mercator range you choose is designed to match your individual requirements and our guarantee is to continue to provide flexible and efficient ranges, supported by industry best logistics which help reduce inventory holdings and improve your cash flow and profitability.

# ICON DEFINITIONS

## General Information

All hard wired electrical products must be installed by a qualified electrician.

## Measurements

All measurements within this manual are in millimetres and are designed to be used as a guide only.

Measurements may vary slightly to those within this manual and may be modified for design or enhancement purposes. Mercator reserves the right to cancel or change all products without any prior notice.

EXT indicates the extension from the wall or ceiling to the outer edge of the product.

**ECO-LITE**

Eco-Lite® provides an environmentally friendly and cost effective lighting solution. Eco-Lite® products are stylish, practical and most importantly safer for our environment.

**LED**

This product features energy efficient LED lamps or integrated LED.

**LOW VOLTAGE**

This product incorporates low voltage technology, giving a brighter light output.

**COLOUR CHANGING TOUCH CONTROL**

This product features a colour changing touch control, allowing you to change between colour temperatures with the touch of your hand

**ON/OFF TOUCH LAMP**

This product features an On/Off touch switch. Suitable for use with incandescent and halogen energy saver lamps, and most brands of Compact Fluorescent Lamps.

**3 STAGE TOUCH LAMP**

This product features a 3 Stage touch switch, allowing you to control the level of light with the touch of your hand. Not suitable for use with Compact Fluorescent Lamps or LED Lamps.

**IP RATING\***

This product has an IP rating providing a degree of protection against the intrusion of solid objects, dust & water.

**IK RATING\***

This product has an IK rating providing a degree of protection against impact.

**IC/CA RATING\***

Products featuring a CA or IC rating are recessed fittings which may be suitable for installation in contact with building insulation, under certain conditions.

**COMMERCIAL GRADE**

This product features a 5 year warranty and is suitable for use in commercial applications.

\*For more information on these Ratings, please refer to the Technical section at the back of this catalogue.

**DIY**

This product can be installed without a qualified electrician, reducing the cost and time of installation.

**DOUBLE INSULATED**

This product is Double Insulated.

**MOTION SENSOR**

This product contains a motion sensor, allowing the light to automatically be switched on when the sensor detects movement. A sensor light is an ideal efficient security light as it is only in use when needed. PLEASE NOTE: Compact Fluorescent Lamps (CFL) cannot be used in conjunction with some motion sensor products.

**DIMMABLE**

This product contains a leading and trailing edge compatible\* driver offering the ability to adjust the intensity of light to suit the desired mood of any room. \*This product is compatible with selected models of dimmers, please visit our website.

**DIMMER SWITCH (FLOOR LAMPS ONLY)**

This product contains a dimmer switch, offering the ability to adjust the intensity of light to suit the desired mood of any room.

**CONTINUOUS TOUCH DIMMER**

This product features a continuous touch dimmer, allowing you to control the level of light with the touch of your hand.

**UV RESISTANT**

This product contains UV stabilising properties to protect from the long-term UV degradation effects from ultraviolet radiation

**SUPERIOR AIRFLOW**

This product features an airflow higher than 10,000m³/hour.

**RUST RESISTANT**

This product is rust resistant and is designed to minimise the corrosive effects of the natural environment.

## Globe recommendation and selection guide

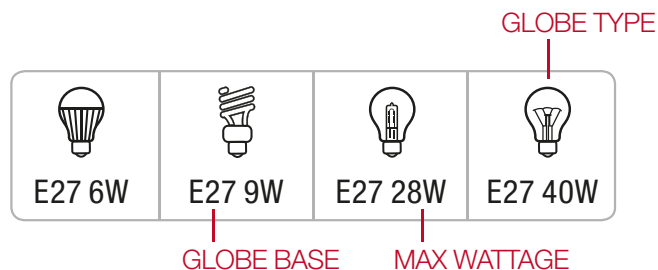

There are a large variety of globes on the market, which can make it hard to know what you're looking for. For your convenience, we have included a table of recommended globes and wattages for each product to help make your selection easy.

Energy saving lamps, such as CFL, LED or energy saving Halogen are sold in wattages much like regular incandescent globes, although they will use less power, whilst producing the same or greater light output.

The Mercator manual details the globe type, base and maximum wattage recommended for each fixture.

Remember: DO NOT exceed the recommended wattage for each product outlined in this manual, as our warranty may not apply if overheating occurs. The maximum wattage specified are as per Australian Electrical Safety Standard.

The use of globes other than those specifically listed for each product is not recommended.

A summary of the globe types and wattages is below:

LED	Energy Saving Globes (CFLs)	Halogen	Ordinary Globes (incandescent)
4w	6w	18w	25w
6w	9w	28w	40w
10w	12w	42w	60w
13w	15w	53w	75w
18w	20w	70w	100w
			
LED	CFL	HALOGEN	INCDS.

# CEILING FANS

Presenting  
**CEILING FANS**

CHOOSING THE RIGHT FAN SIZE

To choose the right fan size, measure the floor area of the room where the ceiling fan will be installed and look up the suggested fan size from the guidelines below. Consider installing more than one fan for larger air movement coverage.

Room Dimensions (m²)	Suggested Fan Size (mm)
Up to 7	700 - 900
7 - 13	900 - 1000
13 - 20	1000 - 1120
20 - 27	1120 - 1370
27 - 34	1370 - 1520

REGULATION REQUIREMENT

The Australian/New Zealand Standard requires that a fan should be installed so the blades are more than 2.1 metres from the floor. If ceiling is higher than 3 metres, consider using an extension rod.

Fan should be installed by a Licensed Electrician.

ENCLOSED OUTDOOR INSTALLATION

If the fan is to be installed in a covered outdoor area, the fan should be placed at least 1.5 metres from the edge of the roof or eaves of the enclosure. This will keep the fan away from direct rain, water and sunlight, as well as indirect water splashing which may cause damage to or expedite deterioration of the fan motor and exteriors.

## THE FUTURE OF CEILING FANS IS HERE!

**DC**  
**MOTOR** | = HIGH PERFORMANCE  
= ENERGY SAVING

A major breakthrough in ceiling fan technology, the Mercator range of DC ceiling fans combines the latest in energy efficient motor technology with high performance and stylish designs.

Direct Current (DC) motors convert an incoming power supply from AC (Alternating Current) to DC (Direct Current), which is significantly lower power than AC.

This results in the fan operates at a lower wattage, achieving a number of benefits for the consumer.

### **DC Motors provide:**

- High airflow
- Reduced energy consumption, lower operating costs
- Whisper quiet operation
- Up to 6 speed settings
- Reversing function on remote
- Slimmer design

### **Sea Breeze Technology**

Allows the fan to adjust its settings automatically over different speeds, increasing and decreasing the speed of the fan to provide a calming sea breeze effect.

\*Note: All energy saving test data produced by accredited test labs. In home results may vary.

# CEILING FANS

## GRANGE DC

### HIGH PERFORMANCE UP TO 79% ENERGY SAVING

- Energy efficient 40w DC motor
- Available with 16w LED lamp – 5000K – 1000lm
- Plywood blades
- Summer/winter setting on remote control
- Tropically rated
- 11,402m<sup>3</sup>/hr maximum air movement

### REMOTE CONTROL INCLUDED

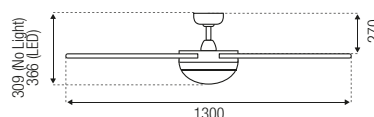

- 6 adjustable speed control to suit your comfort
- Reversing function for all year use
- Easy to read LCD screen
- Learning function for easy code setting

## PRONTO LED FAN LIGHT

FLF15063

3 light fan light, comes complete with 3 x 6w GU10 LED globes

Available in White

12 month warranty

## KRYPTON FAN LIGHT

FLF12533

3 light fan light, comes complete with 3 x 50w GU10 halogen globes

Available in Brushed Chrome

12 month warranty

## AURO FAN LIGHT

FLF1423

3 light fan light

Suits 3 x 60w E27 lamps (globes not included)

Comes complete with Alabaster shades available in Antique Brass, Brushed Chrome, White or Polished Brass.

12 month warranty

## MANTRA FAN LIGHT

FLF022

2 light fan light, comes complete with frosted glass shade

Suits 2 x 15w E27 CFL (globes not included)

Available in Antique Brass, Brushed Chrome, Chrome, White or 316SS.

12 month warranty

## MILANO FAN LIGHT

FLF20422

22w T5 fluorescent fan light with opal acrylic diffuser. Comes complete with lamp

Available in White

12 month warranty

## CADDY FAN LIGHT

FLF3122

2 light fan light with glass diffuser. Suits 2 x 15w B22 CFL (globes not included)

Available in Brushed Chrome or White

12 month warranty

## FRM87

- RF-Radio frequency 433.9MHz
- Suitable for use with incandescent globes and energy saving compact fluorescent lamps
- 12 months warranty
- Transmitter functions: Light ON - Light OFF, Fan OFF - Fan ON, LOW/MED/HIGH
- Fan motor: max 120w
- Lamps: max 300w (incandescent) / max 100w (energy saving CFL)
- 16 possible code combinations

## FRM97

- RF-Radio frequency 433.9MHz
- Suitable for use with incandescent globes and energy saving compact fluorescent lamps
- 12 months warranty
- Transmitter functions: Fan OFF, Fan ON – LOW/MED/HIGH, Light ON – Light OFF, Timer (1H, 2H, 3H, 4H, 5H, 6H, 7H, 8H)
- Fan motor: max 100w
- Lamps: max 600w
- 16 possible code combinations

## FRM98

- RF-Radio frequency 433.9MHz
- Suitable for use with incandescent globes, energy saving compact fluorescent lamps and LED lamps
- 12 months warranty
- Transforms 3 speed fan into 7 speeds
- Transmitter functions: Fan OFF, Fan ON – 7 Speeds, Light ON – Light OFF, Dimmer and three minute light off delay
- Normal / Sleep / Sea Breeze modes
- A million possible code combinations
- Fan motor: max loading 130w
- Lamps: max loading 180w
- Suitable for use with most brands of ceiling fans with AC Motor

## 150mm DOWNRODS

**FD479150**

Suits Mercator Rhino DC Series ceiling fans.  
Available Colours: ■ BC - Brushed Chrome  
□ WH - White

## 600mm DOWNRODS

**FD110600**

Suits Mercator Swift, Kimberley, Healey, Hayman, Hamilton & Kewarra series ceiling fans.

Available Colours: ■ AB - Antique Brass  
■ BC - Brushed Chrome ■ BG - Beige  
■ CH - Chrome ■ PB - Polished Brass  
■ SB - Satin Brass □ WH - White

**FD130600/FD250600**

Suits Mercator Grange & Caprice Series ceiling fans.  
Available Colours: ■ BK - Black  
■ BS - Brushed Steel □ WH - White

**FD360600**

Suits Mercator Eagle, City, Manly, Rio & Flinders Series ceiling fans.  
Available Colours: ■ BC - Brushed Chrome  
□ WH - White ■ BK - Black

## 900mm DOWNRODS

**FD110900**

Suits Mercator Swift, Kimberley, Hayman, Hamilton & Kewarra series ceiling fans.  
Available Colours: ■ AB - Antique Brass  
■ BC - Brushed Chrome ■ BG - Beige  
■ CH - Chrome ■ PB - Polished Brass  
■ SB - Satin Brass □ WH - White

## HOW TO KEEP A BATHROOM WELL VENTILATED?

**3** important factors determine how well an exhaust fan removes steam produced by showers / baths:

- Extraction rate
- Adequate cross ventilation
- Replenishment of exhaust air

### Extraction Rate

Selecting the right extraction rate of an exhaust fan involves 3 simple steps:

1. Calculate the room size.  
Example: Volume of a 2.5m x 2.0m x 2.4m room = 12 m<sup>3</sup>
2. For reasonably good ventilation an exhaust fan must be capable of replacing the air in a room about 15 times per hour (15 ACH). However prolonged hot shower in a cold day may warrant more frequent air changes per hour to help get rid of excessive moisture in the air. If required choose a larger ACH value (>20).  
Example: Required ACH = 15 x 12 = 180 m<sup>3</sup>/h
3. Choose an exhaust fan with extraction rate more than the required ACH.  
Example: Required extraction rate (>180m<sup>3</sup>/h) = 200 m<sup>3</sup>/h

### Adequate Cross Ventilation

Getting a decent exhaust fan with sufficient air extraction rate alone does not guarantee that a room can be well ventilated. A little planning before fan installation is carried out goes a long way. To ensure that steam is effectively removed from bathroom, exhaust fan should be located, as far as practicable, opposite air intake openings so that cross breeze traverse through the room.

### Replenishment Of Exhaust Air

Air discharged must be adequately replenished by fresh air from the outside.

Typical sources of air intake include opening under door, grille on door or window.

If a room has insufficient avenues for air intake, an exhaust fan can be noticeably noisier and will barely extract air. Prolonged use of exhaust fan inside an air tight bathroom may shorten useful life of the motor.

The reasons above mentioned account for most complaints relating to performance of a good exhaust fan. Other common factors affecting air extraction performance include wrinkled duct and restricted movement of self-closing draft stopper.

# EXHAUST FANS & BATHROOM HEATERS

## UNIGLOW LED

Ideal for bathrooms  
 2 x 275w durable IR lamps for instant heating included  
 Very high airflow extraction up to 220m³/hr  
 Ultra quiet and powerful 40W ball bearing motor  
 Draft Stopper and 1.5m, Ø100mm flexible aluminium duct included for energy efficient operation  
 Wall controller with 3 switches included for separate 2-level heat, light and fan control  
 80°C thermal cut out feature for safety  
 Removable grille for easy cleaning  
 Cut out template included

IP RATING CHART

The IP Code (or Ingress Protection Rating, sometimes also interpreted as International Protection Rating) consists of the letters IP followed by two digits.

First Numeral

Protection against the ingress of solid particles

IP

Second Numeral

Protection against the harmful ingress of water

IP	Requirements	Example	Protection of persons against access to hazardous parts with:
0	No protection		Non-protected
1	Full penetration of 50mm diameter sphere not allowed. Contact with hazardous parts not permitted.		Back of hand
2	Full penetration of 12.5mm diameter sphere not allowed. The jointed test finger shall have adequate clearance from hazardous parts.		Finger
3	The access probe of 2.5mm diameter shall not penetrate.		Tool
4	The access probe of 1.0mm diameter shall not penetrate.		Wire
5	Limited ingress of dust permitted (no harmful deposit).		Wire
6	Totally protected against the ingress of dust.		Wire

IP	Requirements	Example	Protection from water
0	No protection		Non-protected
1	Protected against vertically falling drops of water. Limited ingress permitted.		Vertically dripping
2	Protected against vertically falling drops of water with the enclosure tilted 15° from the vertical. Limited ingress permitted.		Dripping up to 15° from the vertical
3	Protected against sprays to 60° from the vertical. Limited ingress permitted.		Limited spraying
4	Protected against water splashed from all directions. Limited ingress permitted.		Splashing from all directions
5	Protected against jets of water. Limited ingress permitted.		Hosing jets from all directions
6	Protected against strong jets of water. Limited ingress permitted.		Strong hosing jets from all directions
7	Protected against the effects of immersion between 15cm and 1m.		Temporary immersion
8	Protected against long periods of immersion under pressure.		Continuous immersion

This Chart is intended to be read in conjunction with AS60529. Degrees of protection provided by enclosures for electrical equipment (IP Code). The symbols shown on this chart are for explanatory purposes only. They are not part of the IP Code and must not be used instead of the Code.

## IK RATING

IK Rating classifies the level of protection electrical appliances provide against mechanical impacts from outside. It is defined by the standard IEC 62262. The degree of mechanical protection is identified by a code that consists of the letters IK followed by two digits:

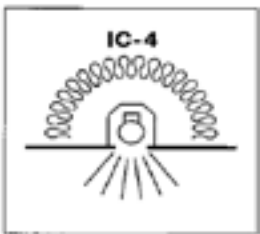

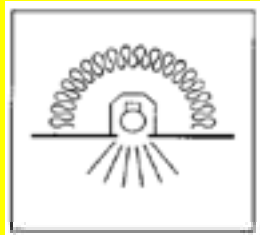

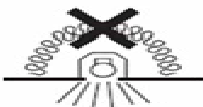

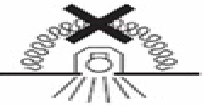

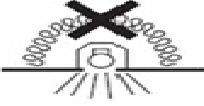

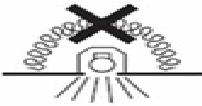

Code	Impact energy (Joules)	Test
00	Non-protected	
01	0.15	Resistant against an impact from an object of 200 grams thrown from a distance of 7.5 cm
02	0.2	Resistant against an impact from an object of 200 grams thrown from a distance of 10 cm
03	0.35	Resistant against an impact from an object of 200 grams thrown from a distance of 17.5 cm
04	0.5	Resistant against an impact from an object of 200 grams thrown from a distance of 25 cm
05	0.7	Resistant against an impact from an object of 200 grams thrown from a distance of 35 cm
06	1.0	Resistant against an impact from an object of 500 grams thrown from a distance of 20 cm
07	2.0	Resistant against an impact from an object of 500 grams thrown from a distance of 40 cm
08	5.0	Resistant against an impact from an object of 1.7 kg thrown from a distance of 29.5 cm
09	10.0	Resistant against an impact from an object of 5 kg thrown from a distance of 20 cm
10	20.0	Resistant against an impact from an object of 5 kg thrown from a distance of 40 cm

# WARRANTY & TECHNICAL

## EXPLANATION OF IC AND CA RATING

New Zealand Only Rating	Description	Symbol
IC-F	Type IC-F recessed luminaire where fixed, building insulating material that can be safely exposed continuously to temperatures up to 90 degrees Celsius may abut and cover the luminaire. The symbol shall be permanently marked on the back of the fitting, be clearly visible, at least 20mm high and clearly legible. Resistant to ingress of external matter.	
IC	Type IC recessed luminaire where fixed, building insulating material that can be safely exposed continuously to temperatures up to 90 degrees Celsius may abut and cover the luminaire. The symbol shall be permanently marked on the back of the fitting, be clearly visible, at least 20mm high and clearly legible	
CA80	Type CA 80 (90), closed abutted, recessed luminaire where fixed, building insulating material that can be safely exposed continuously to temperatures up to 90 degrees Celsius must not cover but may closely abut the sides of the luminaire. The symbol shall be permanently marked on the back of the fitting, be clearly visible, at least 20mm high and clearly legible	
CA135	Type CA 135, closed abutted, recessed luminaire where fixed, building insulating material that can be safely exposed continuously to temperatures up to 150 degrees Celsius must not cover but may closely abut the sides of the luminaire. The symbol shall be permanently marked on the back of the fitting, be clearly visible, at least 20mm high and clearly legible	
NON-IC	Not allowed to have any insulation within 100mm and cannot be installed in residential buildings	

## EXPLANATION OF IC AND CA RATING

New Zealand Only Rating	Australian Equivalent	Australian 2016 Update	IEC/EN Equivalent
IC-F	No Symbol Required - installation refers to AS/NZS 3000		No Symbol Required - installation refers to local wiring rules
IC	No Symbol Required - installation refers to AS/NZS 3000		No Symbol Required - installation refers to local wiring rules
CA80			
CA135			
NON-IC			

Note: The lighting standard AS/NZS 60598.2.2 which relates to recessed luminaires (includes down lights) has been updated in 2016 and the CA/IC ratings and markings have been updated.

The current IC/CA markings have now been replaced with 2016 alternatives. The previous versions are still able to be used until 2018. All new products

## TERMS AND CONDITIONS

---

### **MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS** **TERMS AND CONDITIONS**

**MERCATOR PTY LTD** ABN: 23 005 946 958  
88-100 Kyabram Street, Coolaroo VIC 3048  
Telephone: 1300 552 255  
Email: [warranty@mercator.com.au](mailto:warranty@mercator.com.au)

#### **1. LIMITED REPAIR / REPLACEMENT WARRANTY**

MERCATOR offers a repair or replacement warranty on MERCATOR products in cases where the product fails due to defective materials or workmanship. Please refer to the **LIMITED WARRANTY PERIOD TABLE** which sets out the relevant warranty and warranty period which MERCATOR grants to the purchaser of the MERCATOR product. The warranty period begins from the date of purchase. Also, please refer to **WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY**.

You must have proof of purchase (such as the original dated purchase receipt) from an **authorised MERCATOR retailer** to make a warranty claim. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians. Please refer to the Instruction leaflet for the MERCATOR product purchased, which will state if the product is required to be installed by a licensed electrician. Warranty claims without this documentation will NOT be accepted.

#### **REPAIRS / REPLACEMENTS**

MERCATOR Products presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

#### **BALANCE OF WARRANTY**

To the maximum extent permitted by law, any replaced or repaired products by MERCATOR are covered only by the balance of the warranty period remaining from the date of purchase of the original MERCATOR product.

#### **2. IN-HOME REPAIR / REPLACEMENT WARRANTY**

In addition to the limited warranty terms set out under section (1) above, the in-home warranty applies to all lighting products which are hard wired to the electricity supply at residential premises and are required to be installed by a licensed electrician.

**Where a consumer asserts that a product installed in-home is faulty, and a MERCATOR service agent has attended at the property, A SERVICE CALL FEE WILL BE CHARGED TO THE CONSUMER IF:**

The product is deemed to be a non-MERCATOR product;

- 1) There is nothing wrong with the MERCATOR product or to the extent that the failure is not a failure of the product to perform in accordance with its published features and specifications as reasonably determined by MERCATOR;
- 2) The original installation of the MERCATOR product was not carried out by a licensed electrician;
- 3) The installation is not performed in accordance with the relevant MERCATOR product installation instructions;
- 4) The defects have been caused by incorrect application or abuse or misuse by the consumer of the MERCATOR product.

## **MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS** **TERMS AND CONDITIONS**

In cases of in-home repair/replacements in areas outside the coverage of MERCATOR service agents, MERCATOR will reimburse customers a standard fee of \$82.50 (inc. GST) for using their own electrician. Any service request must be arranged with the MERCATOR warranty department and obtained an Approval Reference Number (ARN) before calling your own electrician. Reimbursements will not be made for call-out fees or other costs without prior approval in writing of the MERCATOR warranty department.

In the circumstances where an emergency has arisen out of normal business hours and the MERCATOR warranty department cannot be contacted to dispatch a service agent to the premises, MERCATOR will reimburse customers their reasonable costs (as determined by MERCATOR) for using their own electrician.

### **3. WARRANTY TRANSFER**

If the ownership changes on the dwelling where the MERCATOR product is installed, the balance of the warranty period passes to the new owner provided the proof of purchase (such as the original dated purchase receipt) from an authorised MERCATOR retailer is retained by the new owner. In addition, a certificate of compliance for the installation as required by law from the installing electrician is required for products requiring installation by licensed electricians.

### **4. AUSTRALIAN CONSUMER LAW**

The benefits given to you in this warranty document are in addition to your other rights and remedies under a law in relation to the products to which this warranty document relates.

#### **"YOUR CONSUMER RIGHTS"**

"Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure."

Subject to "Your Consumer Rights" outlined above, but otherwise to the maximum extent permitted by law, MERCATOR will not be liable for any consequential or indirect loss or damage suffered or incurred by you in relation to a MERCATOR product, including but not limited to loss of use, loss or damage for business interruption, or profits.

### **5. WHAT IS NOT COVERED BY THE LIMITED REPAIR / REPLACEMENT WARRANTY OR THE IN-HOME REPAIR/REPLACEMENT WARRANTY**

Subject to "Your Consumer Rights", but otherwise to the maximum extent permitted by law, the MERCATOR warranties provided in this document will not cover the following:

- 1) MERCATOR products that are not purchased from an authorised retailer and installed in Australia.
- 2) Where installation was not carried out by a licensed electrician as required.
- 3) MERCATOR products not installed in accordance with the product's installation instructions or specifications.
- 4) MERCATOR products not used in accordance with the instructions for use or specifications.
- 5) Defect, damage or failure to a MERCATOR product resulting from misuse, accident, neglect, abuse, tampering, modifications or unauthorised repairs of any kind by any person.
- 6) Damages not caused by a fault in the MERCATOR product materials or workmanship.

## TERMS AND CONDITIONS

### **MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS** **TERMS AND CONDITIONS**

- 7) Defect, damage or failure to a MERCATOR product resulting from any acts of God, including damages from lightning, power grid fluctuations, or power surges.
- 8) Replacement of light sources (globes, fluorescent tubes, etc) unless specified.
- 9) Replacement of batteries supplied with certain products.
- 10) Power supply “noise”, intermittent “humming” or other influences from mains power delivery infrastructure. Signals sent through the power grid by the electricity provider for the control of off peak hot water, street lights and other devices may cause an intermittent humming noise in your MERCATOR product. Filters for blocking/reducing such signals are available in Australia at the customer's expense. These noises do not indicate the MERCATOR product is faulty.
- 11) Damage caused by alternative power systems (for example: solar inverters, etc.).
- 12) Water damage of any kind caused by inappropriate placement of fittings not IP rated for that location.
- 13) The cost of renting, obtaining and using special access equipment (i.e. scaffoldings, scissor lifts, etc.) for accessing products installed at a height of greater than 3.0 meters.
- 14) Travelling costs incurred by MERCATOR personnel or service agents traveling greater than 25 Km from a MERCATOR authorised service agent. The purchaser must meet these traveling costs.
- 15) Non-structural corrosion damage of non-316 stainless steel components such as surface rust or minor rust.

#### **6. COMMERCIAL USE**

Mercator products which specifically designed for commercial use are designated as Commercial Use Products on the product packaging. The warranty period for products designated as Commercial is specified in the Limited Warranty Period Table.

All other Mercator products are designed for domestic use.

Where products designed for domestic use are used in a commercial environment/commercial premises one third of the domestic warranty as defined in the Limited Warranty Table applies.

### **THIS WARRANTY IS VALID IN AUSTRALIA ONLY**

#### **HOW TO MAKE A WARRANTY CLAIM**

- A. **Limited repair/replacement warranty:** Please return the faulty MERCATOR product together with a copy of the proof of purchase, and if required, a certificate of compliance for the installation of the product by the licensed electrician who installed the product, to the authorised MERCATOR retailer where the product was purchased. To the maximum extent permitted by law, the customer must bear the costs and expenses of claiming under this warranty, including but not limited to the cost incurred in freight, postage, handling, travel, dismantling or reinstalling the product.
- B. **In-home repair/replacement warranty:** Where an in-home warranty applies, please phone the MERCATOR customer care hotline 1300 55 22 55 (select option 2.) Australia for all in-home warranty enquiries and do not phone or return the product to the retailer. Do not uninstall or return a hard-wired product to the retailer unless advised to do so by a MERCATOR customer service representative.

## **MERCATOR – LIMITED WARRANTY – LIGHTING PRODUCTS** **TERMS AND CONDITIONS**

IN THE CASE OF MISSING ACCESSORIES OR PARTS, PLEASE CONTACT MERCATOR CUSTOMER SERVICE BEFORE INSTALLATION OF THE PRODUCT. IF YOUR PRODUCT IS DEFECTIVE OR EXCESSIVELY NOISY, PLEASE CONTACT MERCATOR CUSTOMER SERVICE BEFORE THE ELECTRICIAN LEAVES THE RESIDENCE WHERE THE INSTALLATION IS TAKING PLACE.

In order for you to assist us with your claim, please complete the enclosed warranty form in full.

### **LIMITED WARRANTY PERIOD TABLE**

*The following warranty periods apply unless otherwise specified by alternate warranty documentation included with the product at time of purchase:*

<b>Product Type</b>	<b>Light Source</b>	<b>Domestic Replacement Warranty</b>	<b>Domestic In-home Warranty</b>
Ceiling/Wall excluding Down Lights – Standard Globe *	B22/E27/E14/GU10	1 Year	1 Year
Ceiling/Wall excluding Down Lights	LED Module	3 Years	3 Years
Products Designated as Commercial – Down Lights, Panels, High Bay etc.	LED Module	5 Years	5 Years
Decorative Table/Floor -Standard Globe *	B22/E27/E14/GU10	1 Year	None
Decorative Table/Floor	LED Module	3 Years	None
DIY	Any	1 Year	None
Down Lights - Supplied with Plug & Cord (DIY)	LED Module	3 Years	None
Down Lights - Electrician installed (hard wired)	LED Module	3 Years	3 Years
Globes	LED B22/E27/E14/GU10	1 Year	None
Outdoor	B22/E27/E14/GU10	1 Year	1 Year
Outdoor	LED Module	3 Years	3 Years
Pendants – Standard Globe *	B22/E27/E14/GU10	1 Year	1 Year
Pendants	LED Module	3 Years	3 Years
Spotlights – Standard Globe *	B22/E27/E14/GU10	1 Year	1 Year
Spotlights	LED Module	3 Years	3 Years
Task Lamps – Standard Globe *	B22/E27/E14/GU10	1 Year	None
Task Lamps	LED	3 Years	None

*\* Standard Globe means any Incandescent, Halogen, CFL or LED B22/E14/E27/Gu10 etc.*
